BY FANTASY PLAYERS FOR FANTASY PLAYERS

## WHAT IS FANTASY SPORTS?

- **Fantasy Sports (FS)** are virtual games where you for different sports create a virtual team by choosing from real sports players and then you can play against other teams. Your players win points according to how well they perform in real matches.
- If a player does not play you get zero points, which is why our services with expected lineups and injury reports are very important.
- Which players you can choose for your team depends on the tournament you play.
- Traditional fantasy sports are usually played across an entire season, like the popular game Fantasy Premier League (FPL) which is played from August to May. This is a free-to-play variant where you only can win insignificant prizes.
- **Daily Fantasy Sports (DFS)** are an accelerated variant of traditional fantasy sports that are conducted over short-term periods, such as a week, a single day or a single game.
- Daily Fantasy Sports are typically structured in the form of paid competitions referred to as a "contest", where winners receive a share of a pre-determined pot funded by their entry fees.
- For example, a typical tournament is a €2 entry fee with a €20.000 prizepool and €2.000 to the winner. Another example is €20 entry fee with with a €50.000 prizepool and €5.000 to the winner.

# WHAT IS DAILY FANTASY SPORTS?

- Here are some examples of Daily Fantasy Sports.
- Here you can enter multiple teams for a given entry fee for each team. You can win real cash prizes for all entries.
- You have a virtual budget to pick players, so you can't afford all the best players.
- There are also other restrictions, like number of players from each club and allowed formations
